Dear Regional Administrator Blumenfeld,

Attached please find a petition by American Rivers, Conservation Law Foundation, Natural Resources Defense Council, and California Coastkeeper Alliance for a determination, pursuant to 40 C.F.R. 122.26(a)(9)(i)(D), that non-de minimis, currently non-NPDES permitted stormwater discharges from commercial, industrial, and institutional sites are contributing to violations of water quality standards in certain impaired waters throughout Region 9, and therefore require National Pollutant Discharge Elimination System (NPDES) permits pursuant to Section 402(p) of the Clean Water Act.

We are also sending you a package via overnight mail, arriving tomorrow, containing a hard copy of this petition and a USB drive with all of the attachments cited therein.

Please do not hesitate to contact us if you have any questions regarding this petition. We look forward to discussing it with you further.

Sincerely,  
American Rivers  
Conservation Law Foundation  
Natural Resources Defense Council  
California Coastkeeper Alliance

---
